

Three Times a Week For Three Weeks

After the long winter months, too many people neglect the little exercise, particularly the young, feel the necessity for a good spring tonic and blood purifier. This very best young medicine you can take is the King of Tonic laxatives.

CELERY KING

Three times a week for three weeks, brew a cup of this purely vegetable laxative tea and drink it before retiring. Gently yet effectively, it will drive out all impurities and not only make you feel better, but look better, right away, giving you a sweet breath, clear skin and a healthy appetite.

LIFT OFF CORNS

WITH FINGERS

Doesn't hurt a bit and costs only few cents

You'll laugh. Apply a few drops then lift sore, touchy corns right off. Nupain. Yes, magic!

A few cents buys a tiny bottle of the magic Frezzone at any drug store. Apply a few drops of Frezzone upon a tender, itching corn or callus. Instantly that troublesome corn or callus stops hurting, then shortly you lift it out, and you are free of any pain, soreness or irritation. These little bottles of Frezzone contain just enough to rid the foot of every hard corn, callus, corn between the toes and a host of other troubles of the feet. So simple. Why wait? No humbug!

COSHEN

Announcement from Mr. and Mrs. John E. Towner were received by many friends here this week of the marriage of their daughter, Miss Marinda A. Towner, and James F. Morgan at Graveland, N. Y.

Mr. and Mrs. Morgan, who were guests at the home of Mr. and Mrs. R. H. York at Elm Lawn farm, were given a surprise dinner at the Community club meeting Tuesday evening, receiving many gifts, ornamental and useful, besides congratulations and good wishes. The bride was a popular and successful teacher here in the Twelfth school district for several terms.

Arthur W. Lathrop of Hartford was home over the week end.

People at this end of the town were in attendance at the Kenyon auction in Lebanon Monday.

George Kahn has moved the portable sawmill from Hays Valley, near the Jordan, Brook, to the west road woodlot.

Workmen this week have been busy putting in the new heavy timbers at the wooden bridge which spans the Yantic river below the old stone dam.

W. C. Thomas of Norwich was home over Sunday.

Production of Aluminum in 1918

The value of the primary aluminum produced in the United States in 1918 as reported by the United States Geological Survey, Department of the Interior, was \$11,155,225, a decrease of \$4,722,775, or 10 per cent., from the value in 1917. The decrease is due very largely to a decline in the price of aluminum during 1918 and does not represent a corresponding decline in quantity of output.

TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas On Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach," the exceedingly dangerous and sufferer should do either one of two things. Either they eat up on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and tend to excess acid secretion, or they can eat as they please in reason and moderation, and counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bismarck-Magnesia at their meals.

There is probably no better, safer, or more reliable stomach anti-acid than Bismarck-Magnesia, and it is widely used for this purpose. It is not a laxative action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent the whole cause of the trouble and the most disagreeable and healthful without use of potent pills or acid neutralizers.

Get a few ounces of Bismarck-Magnesia from any reliable druggist. It is for either powder or tablets. It never comes in a liquid form, or in a tablet in the blistered form is not a laxative. Try this plan and eat what you want at your next meal and see if this isn't the best advice you ever had on "what to eat."

WHEN YOU WANT to put your business before the public, there is no medium better than through the advertising columns of The Bulletin.

WINDHAM

At the Congregational church Monday evening an informal farewell reception given Rev. and Mrs. M. R. Plumb was attended by a large number of their friends, who expressed much regret at severing the pleasant relations between pastor and people which have existed during the past seven years. After an hour of social conversation, Rev. W. A. Bouchert, rector of St. Paul's Episcopal church, spoke of the cordial relations between the two churches and of his own personal friendship with Mr. Plumb. He paid a fine tribute to the work of Rev. and Mrs. Plumb in the church and community and at the close of his remarks presented Mrs. Plumb an envelope containing a check for \$100, the gift of their wives' Aid society, and to Mr. Plumb a similar envelope containing \$100, the gift of friends in Windham, and \$25 from the South Windham branch church. Both Mr. and Mrs. Plumb, who were greatly surprised by the gifts, responded in words of cordial appreciation. Rev. E. P. Ayer of Mansfield, chairman of the Windham Ministers' union, spoke of the help and inspiration that Mr. Plumb had been to the union. Several very enjoyable selections were rendered by a quartette from Mansfield. Rev. E. P. Ayer, Robert Stearns, G. H. Wyman and Leslie Nichols. The chapel was attractively arranged with green couches and sofa pillows, plants and cut flowers were on the tables and piano. A Victrola furnished music during the evening. Cake, ice cream and coffee were served. Among those present from out of town were Mrs. Lucius Brown, Mr. and Mrs. Allyn L. Brown and Daniel Brown of Norwich, Rev. and Mrs. A. D. Carpenter, Rev. Harry McReady, Rev. W. A. Norris, Mr. and Mrs. George H. H. Brown, Mr. and Mrs. Austin of Williamstown, W. P. Barstow, Mrs. George Stiles, Miss Sara Abbe, Mrs. Tubbs, Mr. and Mrs. Walter Abbe, Jr., Mr. and Mrs. Guilford Smith of South Windham.

Rev. W. M. Brown will have charge of the Easter services at the Congregational church. The leader for the U. E. meeting is Eden Cook.

Miss Carrie Bishop, who has been spending the winter in Florida, returned home last Thursday.

Seventeen were present at the meeting of the Woman's Missionary society held with Mrs. H. C. Lathrop Tuesday. The chapter in the study book "The Path of Labor" was given by Miss Gertrude Arnold. Refreshments were served by the hostess.

Miss Clara Johnson and Miss Emily Lyman went to New York Thursday. Miss Johnson to spend a week with her sister, Mrs. Halsey Kelley, and Miss Lyman to visit her niece in Jersey City.

At the recent social held by the U. E. society the president, Miss Helen Hopkins, on behalf of the society, gave Rev. M. R. Plumb \$7.50 in gold.

The following united with the Congregational church at the communion service Sunday: Mrs. Mabel Bowen, Miss Lucy Hopkins, Mrs. Miriam B. Ayer, Mrs. Anna Patton Smith and Jennie Adams.

Rev. M. R. Plumb will preach his last sermon as pastor of the Edgewood (Providence) church, Easter Sunday. Rev. Plumb and the children will remain here until May 1st, as their new home will not be ready for them until that time.

Rev. W. M. Brown, Mrs. F. E. Guild and Harold Maine, with two members from the South Windham branch church, are a committee appointed to consider the matter of hiring a new pastor for the Congregational church. Mrs. Anna Gray Smith of Jamestown, N. Y., is the guest of Mr. and Mrs. H. C. Lathrop.

Mrs. Julia Arnold has so far recovered from her illness as to be able to do down stairs after being confined to her room for three weeks. Her niece, Miss Nellie Barrows, who has been ill for two weeks, is also improving.

The grammar school is having a week vacation.

The Red Cross rooms are closed for the present, as there is no more work to be done here.

Arthur Williams is recovering from blood poisoning in his hand caused by a cut with a saw.

Miss Mary Packer has returned from Washington, D. C.

At the annual meeting of the Ecclesiastical society of the Congregational church, Treasurer H. C. Lathrop submitted the following statement: Debit—Balance April 1, 1918, \$4.32; weekly offering, Windham, \$478.22; contributions, \$20; offerings and offerings, South Windham, \$67; income from fund, \$89; received from Ladies Aid society, \$20; sale of lamp, \$1; total, \$1,499.72.

Credit—Cash paid pastor, \$1,000; pulpit supply, \$25.50; sexton, \$12.50; fuel, \$9.50; electric light, \$21.49.

THE SPRING EXPOSITION

THE FORMAL OPENING OF SPRING AND THE EASTER SEASON FINDS THIS STORE FULLY PREPARED AND READY TO TAKE CARE OF ALL MILADY'S NEEDS IN WEARING APPAREL FOR THE COMING SEASON.

THE COMPLETE SHOWING IS IN ITSELF A REVELATION OF THE COUNTRY'S BEST DESIGNERS AND FABRIC MAKERS' ART, A SHOWING THAT AT ONCE COMBINES THE LURE OF THE ARTISTIC, WITH THE GRATIFICATION OF THE PRACTICABILITY OF GENUINE VALUE GIVING.

This Easter the World is in Gala Mood and all human-kind takes on a natural and keener interest in the charm of attractive apparel, and because this particular season demands the exercise of discrimination and wisdom in your purchases, we invite you to come to this, our Annual Exposition, in the fullest confidence that your keen judgment will commend the selections we have made. Capes, Dolmans, Coats, Suits, Dresses, Blouses and Furs.

FRANKLIN SQUARE, NORWICH

ceremony lots, \$8; printing, \$3.70; repairs on church, \$22.65; repairs on parsonage, \$78.30; repairs on clock, \$25.75; insurance, \$43; sundries, \$11.25; balance in treasury, \$11.85; total, \$1,499.72.

Mr. and Mrs. W. H. Brown of Brooklyn were in town Sunday and attended the morning service at the Congregational church.

Mrs. Ida W. MacLean, who has been in Norwich with her sister, Mrs. James Bliven, returned home Monday.

Miss Maud Stokes, who has been spending the winter in Brooklyn, N. Y., is at the Inn for a few days. Her cousin, Miss Anna Claassen, will join her the last of this week and they will open their home on Zion's Hill for the summer.

Mrs. R. T. Bixler and daughter Polly have been spending the week in Hartford.

THEY HIT THE SPOT.

D. McMillen, Volunteer Fireman's home, Hudson, N. Y., writes: "My back pained me so I could not sit down to read or write for constant pain, and sleep at night for constant pain, and when I walked I was in great misery. I tried several remedies, but none did me any good. After taking two bottles of Foley Kidney Pills my back and side are completely cured. They are like a stream of water played on a fire by firemen. They hit the spot, put out the fire and drove the pain. They relieve kidney trouble and bladder ailments. The Lee & Osgood Co.

OUR GROWING SHARE IN THE WORLD'S COAL OUTPUT

The serious complaints of coal shortage in Great Britain coupled with the proposition just presented in Parliament for an investigation by a commission to be created by the King, lends interest to figures compiled by the National City Bank of New York regarding world's coal production. In the last half century and relative share of Great Britain and the United States therein. The figures show that the coal output of Great Britain grew from 124,000,000 short tons in 1870 to approximately 255,000,000 in 1918, while the output of the mines of the United States grew from 33,000,000 tons in 1870 to 365,000,000 tons in 1918. The British output in 1918 was double that of 1870. The United States output in 1918 was 23 times as much as in 1870. In all parts of the world aside from Great Britain and the United States, the output grew from 50,000,000 in 1870 to 200,000,000 tons in 1918 or about six times as much in 1918 as in 1870. The United States, according to the Bank's figures, produced about 14 per cent. of the world's output of coal in 1870, 20 per cent. in 1880, 23 per cent. in 1890, 32 per cent. in 1900, 39 per cent. in 1910, 48 per cent. in 1918. Curiously, however, the United States, although turning out 23 times as much coal as Great Britain, has not been until recently an exporter in any considerable sense of coal. Our exportation of coal had never reached as

many as 20,000,000 tons prior to 1912, and even in the highest year record of exports only reached 26,000,000 tons in the fiscal year 1918, the highest record ever attained. On the other hand, Great Britain's exportation of coal was in 1912 72,000,000 tons, or nearly 4 times as much as that of the United States in that year. In 1918 62,000,000 tons against 15,000,000 tons exported by the U. S. British ships, scouring the world for food and manufacturing materials and carrying off manufactures on their outward voyage needed ballast, and thus Great Britain became the world's great coal purveyor, especially in view of the fact that the United States, a much greater producer of coal, had few ships of her own to send over the ocean, and the value of her exports and manufactures was about one-quarter of that of Great Britain.

Growth in production in very recent years has been much more rapid in the United States than in Great Britain, or Germany, or in fact any other part of the world. Our own production of coal, according to the Bank's statement grew from 270,000,000 tons in 1900 to 355,000,000 in 1918, while that of Great Britain was in 1900 233,000,000 and in 1918 255,000,000, and that of Germany 165,000,000 in 1900 and 250,000,000 in 1918, the latest year for which figures are available. In the remainder of the world the output in 1900 was only 160,000,000 tons and in 1918 230,000,000 tons.

The possibility of the United States becoming a large exporter of coal and, perhaps the world's chief coal purveyor looks comparatively easy when we compare the relative supply of coal in the various regions of the globe. The world's total available stock of coal according to the Bank's statement is 5,537,500,000 metric tons of which the United States has 2,539,000,000, or 45 per cent. of the world's total. Canada ranks next to the United States with 1,235,250,000 tons; China, 900,537,000 tons; Germany, 812,130,000 tons; Japan, 422,000,000 tons; Great Britain, 418,550,000 tons; these figures being supplied by the Geological Congress held in Toronto in 1912.

As to the positions of the United States, in which our 2,539,000,000 tons exist, the Geological Survey figures, according to North Dakota with 697,927,200 short tons, Wyoming 670,242,000, Montana, 251,065,590, Colorado 217,519,600 and Illinois 122,051,500,000. New Mexico 100,777,000,000, West Virginia 150,232,000,000, Pennsylvania 124,627,000,000, Kentucky 123,015,000,000, Ohio 92,342,000,000. The coal supply of the World by Grand Divisions is estimated by the Geological Congress above referred to as for North America 5,872,431,000,000 metric tons; Asia 1,270,556,000,000; Europe 734,190,000,000; Oceania 170,410,000,000; Africa 57,435,000,000; South America 32,097,000,000 metric tons.
